

Certification

Concern: **Admission for contact with foodstuff according to
UNI EN 1186:2003 and 1935/2004**

Examination: Material in contact with foodstuff

Material: **Quantum Q-T263-90**

Result: The proofed material Quantum Q-T263-90 corresponds to the
demands of

UNI EN 1186:2003

Proofed substances

According to the demand of UNI EN 1186-5

Food simulant	Test conditions	Overall migration in mg/dm ²
Distilled water	2h at 40°C	< 0,1
Acetic acid 3% (m/V)	2h at 40°C	0,6
Ethanol 10% (V/V)	2h at 40°C	< 0,1
Isooctane	2h at 40°C	< 0,1
Ethanol 95%	2h at 40°C	43,1

According to these migration tests the tested product can be used for kitchen furniture.
Regarding the test results we don't aspect a health risk or an adverse effect for the properties
of the foodstuff.

Accredited institute: Institute Nehring, test report 54787
